March 1, 2005

All State Fire Mobilization Participants:

This revision of the Washington State Fire Services Resource Mobilization Plan, dated January 2005, is approved. The changes to this fifth, full revision have primarily focused on clarifying and streamlining the provisions and procedures that relate to all aspects of a state mobilization incident. The efforts of all involved are to be commended.

Key enhancements in this 2005 revision include:

- Reorganized sections to improve the flow of the document
- Combined sections to reduce redundancy
- Provided clarification by using examples
- Updated information such as RCW's and Regional Coordinators

It is imperative that this State Mobilization Plan continues to be a dynamic document that reflects the pertinent issues and lessons learned, while at the same time focusing on maximizing efficiency and accountability.

Thank you for your willing and continued participation.

Sincerely,

John R. Batiste
Chief
Washington State Patrol

Ms. Sharon Colby, Chair
Washington State Fire Protection Policy Board

Dear Chair Colby,

Enclosed is the proposed 2005 revision of the *Washington State Fire Services Resources Mobilization Plan*. It is intended that this revision will be presented to the Washington State Fire Protection Policy Board for consideration at the workshop meeting scheduled for 9 a.m. on November 10, 2004, and for approval at the regular meeting following the workshop. I will be attending both meetings to make the formal presentation and respond to any questions you may have.

This is the fifth full revision of the *Plan* since it was first published in 1994. The Fire Defense Committee has meticulously reviewed and revised each section to provide clarity to the provisions of the *Plan*, streamline its procedures, and ensure efficiency and accountability of resources mobilized. This revision encompasses the recommendations and changes derived from After Action Reports and the Regional Coordinator's comments from the various mobilizations over the two years.

This *Plan* remains a dynamic document that is continually being revised. Your approval assures an effective and efficient response of fire service resources across the state whenever a request for *Mobilization* is received.

The Fire Defense Committee is sincerely appreciative of the support and encouragement given by the Washington State Fire Protection Policy Board and the partnership with the Mobilization Section of the Fire Protection Bureau of the Washington State Patrol. Together, we have a successful plan that benefits the citizens of the State of Washington.

After 10 months of hard work by the Fire Defense Committee and the Plan Review sub-committee, I am extremely proud of this document and look forward to presenting this final draft to the Board for approval.

Sincerely,

/s/

Dave Wakefield
Chair, Washington State Fire Defense Committee
